

## ELIOT WILL OBSERVE OLD HOME WEEK

August 12th to 17th With the Mark-  
ing of Historic Spots and Other  
Observances

The citizens of this town are making great prepara-  
tions for the observance of their third Old Home Week,  
which is held from August 12 to 17, inclusive.

At a recent committee meeting the  
report of the parade committee, ap-  
pointed at a previous meeting was  
accepted, and it was voted that the  
prizes for automobiles would be a silver  
cup for the first and \$10 in cash for  
the second. The teams receiving a sil-  
ver cup as first, \$15 second, \$12.50  
third, \$7.50 fourth and \$5 fifth. The  
silver cups will be engraved, describ-  
ing the event and the winner's name.  
Automobiles and teams from sur-  
rounding towns are invited to partici-  
pate and can receive all information  
from the chief marshal, George B.  
Horne, or members of the parade com-  
mittee.

Through the earnest work of the  
Rev. A. J. Hayes the boys of Kittery  
and Eliot have received the thorough  
training as Boy Scouts, and it is with  
much pleasure that they will be ask-  
ed to take part in the parade.

Mrs. John F. Hill, following the ideas  
of her late husband, Ex-Governor Hill,  
has offered to give to the town six  
bronze tablets to mark historical spots,  
and the selection of these places have  
been left to a committee. The com-  
mittee voted in addition to erect a  
bronze tablet to the memory of the ex-  
Governor at the old Hill homestead.  
Hon. Herbert M. Heath of Augusta has  
been invited to deliver a memorial ad-  
dress at the unveiling of the Hill  
tablet.

The committee voted to observe ex-  
ercises on the different dates as fol-  
lows:

Monday, August 12—Afternoon—Un-

veiling of tablets; evening, reception  
at Grange hall.

Tuesday—Afternoon and evening—  
Reception and banquet of former Eliot  
academy students.

Wednesday, afternoon—Eliot day;  
literary and musical exercises, follow-  
ed by a collation to which all present  
are invited; evening, band concert.

Thursday, forenoon—Parade; after-  
noon and evening, John F. Hill grange  
will entertain.

Friday—Afternoon and evening, re-  
union of students of Eliot high school.

Saturday—Games.

In addition to the above exercises,  
concerts are being arranged at the  
various churches for different evenings  
throughout the week.

Among speakers expected Wednes-  
day are Governor Pinkney and Senator  
Johnson, F. W. Hartford of Ports-  
mouth is also expected as speaker  
some time during the week.

The following committee have been  
appointed:

Musical—Dr. H. I. Durgin, M. P. Tob-  
ey, H. D. May, C. E. Bartlett and G. F.  
Kennard.

Parade—C. H. Staples, Charles E.  
Raitt, Alfred Spillney, W. L. Hobbs  
and C. F. Drake.

Program—Dr. J. L. M. Willis, A. B.  
Cole and G. B. Hammond.

Games—H. P. Libbey, C. G. Gate, C.  
F. Drake, J. R. Goodwin and W. O.  
Kennard.

## NO CHOICE YET AT BALTIMORE

Believed That Should Clark and Wil-  
son Fail On Next Ballot, Conven-  
tion Will Turn To Underwood

BALTIMORE, Md., July 1—The democratic conven-  
tion resumed its session here this morning and up to 1  
o'clock two ballots had been taken. The first ballot re-  
sulted in practically no change from that last taken Satur-  
day night.

On the 28th ballot there was a shift of the thirty votes  
that Marshall had been receiving, twenty-nine going to  
Governor Wilson and the remaining one to Clark.

Their respective vote was:  
Clark ..... 468 1/2  
Wilson ..... 437 1/2

### TWENTY-NINTH BALLOT

The result of the twenty-ninth ballot was as follows:

Clark ..... 468 1/2  
Wilson ..... 436  
Underwood ..... 112  
Harmon ..... 29  
Kern ..... 4  
Foss ..... 38  
Absent, one-half.

### 30TH BALLOT

On the 30th ballot Wilson took the lead receiving 460  
votes to Clark's 455, Underwood 121 1/2, Harmon 19,  
Kern 2, Foss 30. Vermont dropped Foss and went to Un-  
derwood.

Hope of a nomination on the 27th  
ballot for president was practically  
abandoned by the Democratic leaders

last night. It was believed that some  
solution of the long deadlock would  
result from conferences between the  
champions of the three leading candi-  
dates but it developed that the time  
had not arrived for the withdrawal of  
either Speaker Clark, Governor  
Wilson or Representative Underwood.

It was not expected that the first  
ballot today would materially differ  
from the 26th. Campaign managers  
possibly might have reached some  
agreement if interest in the deadlock  
had not been dwarfed by the personal  
controversy developed between Wil-  
liam Jennings Bryan and Speaker  
Champ Clark.

Clark having failed of nomination  
for 17 ballots after receiving a ma-  
jority vote probably has reached the  
crest of his strength.

Wilson although climbing steadily  
apparently was bitterly opposed by  
delegates who represented the general  
impression that Colonel Bryan had the  
vote power, although he lacked the  
votes necessary to control the nomi-  
nation.

Should Clark and Wilson fail on  
the next two or three ballots it is  
predicted that there would be a turn  
to Representative Underwood.

Had held his normal vote front first  
to last.

Sunday brought no secession or  
hostilities between William J. Bryan  
and Speaker Clark, both giving out  
statements last night.

Mr. Bryan sought to justify his  
position in opposing the Speaker for  
the presidency because of support  
other members of the New York  
given him by Charles F. Murphy and  
delegation denominated by the Na-  
tional as "wax fingers."

Mr. Clark declared as "false and  
infamous" Mr. Bryan's implied ac-  
cusation that the vote of the New York  
delegation placed him under obli-  
gation to J. P. Morgan, August  
Belmont and Thomas Fortune Ryan.

## THE TILTON DRUG STORE BURGLARIZED

Entrance Gained By a  
False Key and \$26  
Taken

The Tilton Drug store on the corner  
of Market Street and Commercial Alley  
was burglarized some time Sunday night  
and \$26 in money taken from the cash  
register. As far as known nothing was  
taken, and the party or parties who  
did the job evidently were after nothing  
except money. The theft was discov-  
ered this morning when the store was  
opened and the rear door leading to  
Commercial Alley was found open. It is  
believed that entrance was gained  
through this door by means of a false  
key.

## An Editorial

from the Detroit Times  
June 12, 1912

If The Price of Coffee  
Would Double Again  
All The Better!

The price of coffee has doubled in three or four years. And this despite production has doubled in that time. The reason for the present high price of coffee was sought and it has been found that the market supply has been artificially restricted. The Brazilian government is in the operation and participates in the profits to the extent of an export duty of three cents a pound. And American bankers are financing the scheme. Diabolical plot? Outrageous conspiracy?

Perhaps. But we did not take our pen in hand to condemn anybody concerned except COFFEE DRINKERS—to condemn them and also to congratulate them, both upon the present increased price and the probability that it will go higher.

It isn't exactly inspiring to see American capital finding its way to a foreign country to be used there to the end of exploiting American family pocketbooks.

However, this is not the saddest fact involved, to our way of thinking.

It is most regrettable that the consumption of coffee in this country has increased to a point to warrant manipulation of the supply.

We don't like to look upon coffee as becoming a NECESSITY to the American people, and view with alarm the activities of capital suggesting that it is becoming a necessity.

Coffee isn't good for you.

Too much of it is positively harmful.

If the present price, doubled in four years, would double again, it would be the best thing that ever happened to the excessive coffee drinker.

He wouldn't drink as much of it.

Better yet, maybe he wouldn't drink it at all.

Just possibly you have put down as being a bit nervous in this coming in and sitting down beside you before the coffee pot and telling you to keep hands off.

Nevertheless, we mean well.

We are talking for your good.

You like coffee, probably, and perhaps you think it is none of our business if you drink it or if you drink all you want of it.

But, wait those pink pills that look like candy and cry if we don't let them have them.

The same pink pills, left around by careless mothers, have killed many babies.

And many grown people know as little as babies about the care of their bodies.

There are intemperate coffee drinkers the same as there are intemperate drinkers of alcoholic beverages.

The cup of coffee that goes to prove fatal, not two cups of coffee. Two cups may upset your entire system, make you uneasy, restless and peevish and unfit you for best results for a day, but it will wear off after awhile the same as a whiskey drunk wears off.

But bring to us a person who drinks two and three cups of coffee regularly for breakfast, or a person who drinks coffee three times a day, and we will show you a person with a bad-acting heart, a sluggish liver, a disordered stomach and a shattered nervous system.

If you don't believe us, ask your doctor.

He will tell you that coffee contains caffeine which he gives in the smallest kind of doses for a heart stimulant.

He will tell you further that too much caffeine or too much coffee will give you a palpitating heart.

Then if you are satisfied to run the risk of having that kind of a heart-keep right on drinking all the coffee you want and excuse us for interfering.

Tastes Better Than Most Coffee

Stir a spoonful of Instant Postum in a cup of hot water, add cream and sugar to taste, and you at once have a delicious drink that's wholesome, pure, and good for old and young.

A 100-cup tin of Instant Postum (no boiling) costs 50 cents at grocers, 1-2 ct. per cup. Smaller tins at 30 cents.

Standard Postum, large pkg. (the kind which must be boiled 15 min.) 25 cts.

Both produce the same result; one by boiling and the other instantly.

Coffee averages about double that cost.

Housewives appreciate Instant Postum because it saves time, work and fuss in the preparation of a meal; and for its intrinsic merit.

Ask your grocer about it. If he doesn't carry a supply order it addressed with a 2-cent stamp, and your grocer will send you a free sample of this delicious food drink.

## CONCORD LETTER

Concord, July 1.—Governor Robert P. Bass returned from attendance upon the Republican national convention at Chicago in time to attend Commencement Week at Dartmouth, where, by the way, he received a hearty welcome, especially from the younger alumni, so spontaneous as to be impressive. Up to the hour of writing this, Governor Bass has not talked any politics for publication, but it is understood that he will meet some of his friends in conference this week and go over with them the situation as it strikes him in view of what he saw and heard at Chicago and what has happened since at Baltimore, together with reports of the sentiment in various sections of this state.

Meanwhile there is an almost entire lack of political activity in the state, no new candidates for important offices announcing themselves, and those already in the field not making any particular stir, somewhat of a contrast to the conditions two years ago, at the corresponding season.

However, the secretary of state is of the opinion that there will be some activity later and he is sending out official instructions as to the nomination of candidates for the direct primary, the date of which this year is Tuesday, Sept. 3. Declarations of candidacy are to be filed with the secretary of state between July and August 15 for the offices of governor, representative in congress, county clerk, state senator and county places; and with town and city clerks for representatives to the legislature, supervisors, moderators and delegates to the state convention. When these returns begin to come in the continuously busy season at the office of the secretary of state takes a new spurt with the beginning of the preparation of the official ballot for the primary, first, and afterwards for the November election.

These latter ballots will contain this year, in addition to their usual columns and squares, the twelve amendments to the constitution proposed by the recent convention, printed beneath the lists of candidates and above the liquor license vote; a fact which will give the present generation of election officials the biggest job they ever have had.

Meanwhile the rush for motor car licenses continues at the same office in the capital and July opens with 200 motor cars licensed in New Hampshire, during the whole year of 1911, the present total rising 4,800.

The commission appointed by the supreme court to determine the valuation of the 6000 acres taken by the state for public park and forestry purposes in Crawford Notch, authorized by the last legislature, will begin to take a view of the property on Monday, July 15. After the view the commission will hear evidence in the court house at Lancaster. The members of the commission are: Former Attorney General Edwin G. Eastman of Exeter, Representative James E. French of Moultonborough and Herbert B. Moulton of Lisbon.

Attorney General James P. Tuttle and Councillor Harry T. Lord of Manchester will represent the state at the hearings. The other counsel are George F. Morris of Drew, Shurtleff and Morris of Lancaster for the Barron Hotel Company; Bernard Jacobs of Lancaster and Edwin Smith of Wells River for Jacob Stann in Berlin and Leslie P. Snow of Rochester for Charles H. Morey of Hart's Location. Mr. Morey is the owner of the larger part of the property to be taken.

Governor Spry of Utah and the other members of the commission which has in charge the erection of a new capitol building for that state were in Concord last Thursday and made a thorough inspection of our remodelled state house, which, they said, they had heard of as being of great value for the money expended on it; and this report they confirmed from their own observation before leaving the city.

The projected railroad rate hearing neared completion last week, more shippers being heard from and final estimates introduced by engineers and by the purchasing, freight and traffic agents of the railroad. Chairman Edward C. Niles of the commission received during the week the honorary degree of Master of Arts from his Alma Mater, Trinity College.

Both the Boston & Maine and Grand Trunk petitions and protests have been circulated for signatures in this city, but the first of our prominent public men not associated with one side or the other to take a public position in the matter is Mayor Charles J. French, who in the course of an address given by him last week strongly championed the Boston & Maine as the source of much benefit to city and state and opposed the proposed division of its territory and traffic with the Grand Trunk.

The Grand Trunk engineers are rushing work on the survey of the Forest Line, one of the several routes through New Hampshire which they have in mind; and the Boston & Maine folks, on their part, are not allowing recent rate hearings or possible future warfare to divert their energies from making better care than ever before of the largely increased business which came with their summer timetable this year.

Another line of railroad activity in evidence here and throughout the state of late takes the form of a circular sent out by the New England Lines, Industrial Bureau of the New York, New Haven & Hartford, Boston & Maine and Maine Central railroads through their agents to the different cities and towns offering to cooperate with them in letting factories, foundries, etc., with a description of the same, that are for sale or to rent.

There is no charge for the service, the idea being to have such information along with this bureau, which W. H. Beeley is manager, with offices at the South Station, Boston, for the industrial

advancement of the cities and towns which respond. Concord has listed some very desirable business propositions with Mr. Beeley.

## THOUGHTS FOR THE QUIET HOUR

In the 8th verse of the 10th Book David says: "It is a delight to do thy will, O my God; yea, thy law is within my heart."

When we read the whole of David's life and see the many wrong things he did, some of the worst sins on record, we can hardly refrain from saying, "You old hypocrite, what are you talking about, for the world has known few, if any, worse crimes than he was guilty of. Yet we not only read what he says himself, but one from God saying that he was a man after His own heart. In order to explain this we must study David's characteristics. By so doing we find him a very healthy, full-blooded man with great vitality, strong animal passions, a man who when he did anything did it with all his heart. No half-way work with him. So when he took hold of anything he put his whole soul into it. When he did a good act he did it with such sincerity and so earnestly that it became a delight to him, and then when tempted to do wrong he did it with the same energy and enthusiasm for he could not do as many can, coolly look over the consequences and act deliberately. Now if you will with me look over The Word, we shall find God condemning lukewarmness more severely than any other thing. See what he says to the Church of the Laodiceans in the third chapter of Revelations 14 and 18th verses, and there are many other places, the book of Isaiah is full of them. If we will look at it a moment we find it is this wholesomeness that makes a man worth anything in this world. Who ever leans on a man who is always so cool and calculating that he never enters into anything with enthusiasm. He has no public spirit and is worth little to the public or himself. Who ever knew a man who never made a mistake or did a wrong thing who was good for much. We sometimes hear it said a man has not an enemy in the world, you might as well say he was a piece of driftwood going with the tide, w hichever way I was running. So if we say a man has never done a wrong or foolish thing his chances are he has never done a good thing. Now let us see how a man can delight to do God's will who is doing wrong and making so many mistakes, who can so well understand the joy of doing right as the one who has felt the sorrow of wrong doing. We do not find much in the 11st Psalm, which was written by David after he had committed that terrible sin, or 1 may say, succession of sins. Now when he has been tempted and has overcome see what an enthusiasm of joy he will have. We can see how he can say, "It is a delight to do thy will, O my God." It is the very thing in his character which tempts him to do wrong which makes him worth anything when he does right and makes it a joy to him. His sins are caused by strong temptations from without, they are not of the heart. He does not coolly plan to do wrong, but his whole desire is to do what God wants him to do, so he can say, "Yea, thy law is, written in my heart." Now then God judges by what he sees in our hearts, not by our weak nesses but what is our chief purpose and desires. I sometimes think God does not hear our words in prayer but read them on our hearts. Looking at it from this point we can see how God could say David a man after his own heart, with all the crooked paths David made.

Should this make us more careless of what we do? I think not. See what effect it had upon David by reading the 11st Psalm of his great sins, and then the joyfulness with which he wrote so many of his other Psalms. He delight to do God's will. Now the lessons for us to learn from this experience is David, we certainly cannot think it is a right for us to sin because it is a very quality in us which tempts us. It is sin is what God likes when we control it and use it in serving him. But be encouraged to put forth every effort to feel this quality in us so busy in God's service that it will have no time to yield to temptation. If we do this for a while we shall become so happy in doing God's will that temptations will have no power given us. If any one has fallen, do not get discouraged, but up and fight it over again for God will help you. He says "though your sins are as scarlet they shall be white as snow, though they be red like crimson they shall be as wool." So let us keep at it and find a delight in doing God's will. The world wants to see happy Christians and that is what wins.

BATTING AVERAGES  
OF LEAGUE

The official batting averages of the players in the Sunset league are here presented for the first time, the games being brought up to date or practically one-half of the season as compiled by Philip Sanderson, the official scorer. Goodwin who played with the P. C. U., leads the list with an average of .626 for four games. Pruett of the Riversides with seven games is second with a fine showing of .500. Jewell is high man for the P. A. C. for the "Champions" have played more games than other teams, but he has only taken part in six. Fisher is high man for the team for the full number of games and he is batting especially well this season. McPheters leads the Y. M. C. A., Driscoll the K. C., although Mates, who has played all of the games is batting for .375. Neither Ira Newick nor George Woods of the "Champions" are batting as well as usual for both are undoubtedly two of the best batters, but they have been out of luck. Ira is however tied with McPheters and Reardon for largest number of runs.

MILITARY  
AUTOMOBILE ATTRACTS  
ATTENTION

Driving the "Mitchell Ranger" military dispatch automobile which last year carried the famous "ocean-to-ocean" army dispatch from General Leonard Wood at Governor's Island to General John F. Weston at San Francisco, Captain Stanley Lewis of the Arizona Rangers arrived in Portsmouth last night and is quartered at the Kearsarge. Captain Lewis is well known in the literary field as a writer of military and railroad stories for the various Munsey publications, and is enjoying a year's furlough from his duties in the Rangers, who are a body of light cavalry similar in scope to the Canadian mounted police and who maintain a rigid and effective patrol system along the Mexican life. The "Rangers" now encamped along the border have temporarily assumed the patrol work of the Rangers, which accounts for Captain Lewis's leave of absence. Battered and dented from over 28,000 miles of actual service with the seal of the War department on its battered hood and with a Colt automatic gun projecting its long blue barrel over the radiator the "Ranger" was the centre of an interested crowd in front of the Kearsarge on its arrival.

Captain Lewis states that 25 similar cars are now in active service in the southwest.

SHERIDAN REMAINS  
AS UMPIRE

The directors of the Sunset league have declined their action of Friday evening, and "Bill" Sheridan will continue as umpire-in-chief of the Sunset league games. This action was taken on Saturday afternoon at a special meeting called for that purpose.

The directors as soon as it was known that they intended to "can" Sheridan, were beset by the fans who protested in no uncertain language, and made it very plain that the Sunset league is a "public institution" in this city and the fans do not propose to see it wrecked.

The directors of the league came out with a statement that the vote of Friday evening was not intended to do away with Sheridan wholly as an umpire, but to lay him off for a week and in that time try the combination of Carlin and Howard. But it was made very plain before the vote was taken that Sheridan was not the kind of a man who would stand for being disposed of in this way, and that he would continue to umpire all of the games or sever his connections with the league entirely, and this was the effect of the vote, that Sheridan would be disposed of and the directors knew it.

The directors, however, did not think for a minute that the fans would take such a great interest in the matter and as soon as they saw that it was displacing to ninety-nine percent of the fans they promptly arranged to have the vote rescinded, realizing that it is the public who are vitally interested.

The result is that "Bill" will be on deck this evening.

## "Looking Forward."

In order to get an idea of what is before us we have first to take a look back so we can see more plainly the causes which produce effects.

I can remember the conditions of business and general conditions every presidential election year since 1840, or 18 elections, and there has always been less activity in business that year, sometimes more depression than others, but always some. In all these elections there has been some basis on which one could make some "guesses," at least, of what the result would be, but in this one it is utterly impossible to even guess what the result will be, even after the nominations are made. So naturally we may look for a time of waiting on the part of business men to see a little more clearly what is before them. So every business man will keep his sails pretty closely locked up. Another thing, I have like every one else, seen business almost stand still while tariff tinkering was going on. And this is one of the sure things whatever the result of the presidential election may be, and will be likely to last for at least one year before it is settled. So I can see no prospect of an active business for from one and a half to two years.

Now let us look in another direction. We have installed millions in Railroad stocks and bonds in this country, about one-half water on which the people have been paying dividends, but are getting tired of it and the result is travel is withdrawing from the steam roads, and going to the electric cars and automobiles, so we see the cars with ten or twelve passengers in them where formerly they would be full. When we come to the freight, that has not dropped off as much yet, but is constantly going to the automobiles. Now goods are sent from Boston by automobile all the way to Portland and is doing more and more of it every day. What will be the result? I can see but one, and that is the water will be watered out of the stocks and bonds so that they will not bring one-half of what they do now, so our billions will have to drop off one figure, at least, guessing how much they lose. It seems to me any one who is not blinded by the enormous pile of watered stocks and bonds he has can see that the present conditions cannot continue. There must be a leveling up of the conditions, or rather leveling down process before we have a real term of great prosperity for when one man in a million can fill out a lot of bonds to any extent and make the million pay him a dividend on that stuff which has but little more value than the paper, it is written on—anyone can see that an end is coming to that and someone will get hurt. Now for a little advice free to any one who has B. & M. stock. Sell it, put your money into Portsmouth & Exeter electric road, make it a first class road and run it to accommodate the people and in two years you will have double the money you will have if you let it stay where it is, and you will be helping your city, which the present management is not doing and is a curse to it. You have let them tie up your business, so they do just as they please. I tried to ship a box today to Idaho by express. I had to ship two or three times before I could get it, then I found I had to ship the freight. I went to the express man and when waiting some one told me that they could not get the box out of the city and would have to ship it by express and get the price, which was two or three days. Mean-

## CURRENT OPINION

BY  
**DR. MARTIN G. BRUMBAUGH,**  
Supt. of Schools of Philadelphia.

### One of the First Duties of School In Training of Children.

To fit the child for efficient citizenship by training him in the common virtues is the first duty of every school. Whether secular or religious and whether publicly supported or privately endowed.

A child may reach a high degree of technical perfection, yet if he has been allowed to acquire habits that are offensive to society he is a fraud and education has for him failed of its fundamental purposes. When a child's conduct shows that he is acquiring the principles of kindness, decency, regularity, a regard for the rights and interests of others and the other qualities that are the very foundation of democracy, you need have no fear about his classroom studies. They will follow logically and naturally. The thing of most importance is the development of moral fiber, a willingness for each to do his share and a determination to do the task before him thoroughly and conscientiously.

For next to a grounding in the common virtues the boy and girl should be taught that whatever the lesson may be it must be tackled conscientiously and without the slightest hint of shirking. The secret of a child's success lies in the fact that the habit has been established to do the given task to the best of his ability.

When the child enters school he is trained to surrender his own idiosyncrasies and conform to the common law which is built upon the rights of the many. Unless we train the child at the beginning in the broad laws of co-operation he will carry business competition into the conduct of government. He will grab for what he can get and you have the political leech and sucker.

slugs show to draw the crowd to the quadrennial vaudeville in behalf of the hotel keepers.

It is reported that Hagenberg's animal show men are getting many points from a study of the art of handling national conventions.

It seems a little strange for a powder trust to dissolve. Much more natural for it to "go off."

After all, La Follette could boast of being the only candidate who could carry his own state.

The four women delegates in the Chicago convention had a hard time keeping their hats on straight.

Mr. Hadley of Missouri succeeded in getting a rather large slice of rainbow while the wrangle over the cutting of a regular mason went on.

It remains to be seen whether Alton B. Parker can "make good" as the Editor of the democratic party.

Vice President Sherman is the man

who appears to have the best of it when it comes to a placid yet distinguished career.

If a Chicago policeman should be found asleep on his beat, he should be treated leniently. He needs the rest.

Another overwhelming demand is now in process of incubation.

About this time a great many of possible \$1500 and more a year men, he came \$2 a day men, because they haven't either the price, the faith, or the grit, to stick to school a few years longer.

When women really get into the political game it is to be hoped that they will not make a common practice of throwing their hats in the ring. It's going to be hard on their husbands if they do.

It might be a relief to the republican party, if Mr. Roosevelt could be angered to such a degree as to make him positively refuse to play.

The federal government engineer who recently inspected the concrete roads of Detroit, Mich., pronounced them the best

ever built. Let us hope the day is not far distant when every state in the Union will boast of hundreds of miles of just such roads.

Mr. George W. Perkins will have leisure between now and August to figure out whether his political activity has been a good advertisement for his regular business.

Objection to Alton B. Parker cannot be based on any apprehension that he means to stampede the convention by a burst of eloquence.

PEOPLE'S OPINIONS

PEOPLE'S PININS

Why Not Use It?

Editor of the Herald:—

I would like to inquire through your valuable paper what has become of the street sweeper used on the asphalt paving and on Richards avenue last season to good advantage. On Richards avenue the dirt and refuse matter has been allowed to collect on the sides of the brick paving until it is a disgrace. I do not think that it has been cleaned once this summer. On my way to church on Sunday I could not help noticing the filthy condition of the asphalt streets in the compact part of the city.

The city paid good money for the street sweeper and it would seem as though it should be used in the interest of clean streets.

RICHARDS AVENUE.

Wants Relief From Nuisance

Editor of the Herald:—

A more irritating, sleep-disturbing, nerve racking nuisance than motor boats without "mufflers" don't exist, and Maine and New Hampshire both allow this nuisance to exist on coast and rivers in spite of repeated requests of hundreds of people who suffer day and night from the infernal noise of these boats. The governor of Massachusetts has now taken a hand in the matter and when he gets through with these law breakers there will be less noise, to say the least. Why can't the governors of Maine and New Hampshire come to the front in this matter and give the relief the public asks for and should have had two years ago.

Yours truly,

F. TORREY.

## RAILROAD NOTES

The law passed at the last session of the legislature calling for individual drinking cups on all passenger trains in the state went into effect today.

Young Buffalo Bill Wild West Show, which exhibits here on Monday next, has a train of nineteen cars, made up as follows: Six sleepers, seven flats and six stock cars.

The Boston and Maine railroad is advertising a one day excursion from Portland to Boston on Thursday, July 11, at cut rates. The fare for the round trip from this city is \$1.50, good on any regular train of that date.

Twenty carloads of hay were badly damaged and several dwellings scorched by fire in the freight yards of the Boston and Maine at Charlestown on Saturday afternoon.

## WHERE TIME IS MONEY.

That the manufacturing business is not all dull routine is proved by the following stories credited to Mr. F. W. Young, superintendent of the Crocker-Wheeler Works at Amper, N. J.

"I doubt if the public realizes how often and to what extent it is necessary for a big machine factory to work at high pressure. Recently we received an order for some large water cooled power transformers to be delivered in either four or five weeks. There was a bonus and penalty clause covering the time of shipment on a basis of \$100.00 per day. When you realize that every machine is put through exhaustive tests before it is permitted to leave the factory, and that some of the parts may be rejected as not up to standard, you gain a conception of what this means to the man responsible for speedy delivery. The temporary absence of illness of one or more operatives or the break-down of a machine upon which he is relying may cost his company many dollars. On the particular job mentioned above we gained the bonus."

"We recently accepted an order from a fruit preserving company for shipment in twelve days of about thirty induction motors, with special accessories and impregnated waterproof windings. This was also a 'penalty and bonus' order covering time of shipment. The apparatus left the factory in just nine days."

**Optimistic.**

We should be optimistic and strive to see the glory of the sun. And thank the Lord that we're alive And in a world so full of fun. Time was I used to fret and frown. The way so many people do. My eyes were always looking down, And I was always sour and blue. But now I smile and gaily say, The wine of joy is in the cup, I am an optimistic today My early radishes are up!

We should rejoice that we are here And bear our wrongs with patience sweet. We ought to dry the bitter tear And smile at every one we meet. The world is good and men are kind, There's every reason to be glad. Some comfort we can always find For every ache that makes us sad. I am an optimist today, I've put away grim care and doubt; With head up high I shout "Hurrah!" My lettuce has begun to sprout!

I've ceased to be a pessimist, I have no patience with the crew Of men who every day insist That life's intolerably blue. They ought to drop their cares awhile And go their way, the same as I; They ought to glory in a smile And cease to frown and cease to sigh; They ought to give Fate blow for blow Refusing in the fight to flinch. What is it makes me take on so? My early beets are up an inch!

Mrs. William Howard Taft decided that she would like to see a national convention in operation, so she took a run from Washington to Baltimore and attended two sessions of the Democratic convention. She occupied a seat in the box reserved for Norman B. Mack, chairman of the Democratic national committee. Mrs. Taft is indicated in the cut by a cross. On her right is Mrs. Mack, and on her left is Mrs. Hugh Wallace, wife of a delegate from Utah, who was Mrs. Taft's hostess in Baltimore. ### A WILD WEST

#### Strong Attraction at Music Hall the Present Week.

The management of Music Hall has secured Captain Brunswick's Wild West, the highest priced wild west show on the vaudeville list today as an attraction at this popular playhouse.

The Tenderfoot's Troubles will be presented, showing how an Easterner is treated when he first goes west. During the performance there will be introduced Indian bow and arrow shooting, Indian description of the Battle of Wounded Knee in 1890 and the death of Sitting Bull, Indian war dances, cowboys' fancy shooting and roping, and many feats of skill and strength performed only by these hardy plainsmen.

Another act will be presented by Miss Camille Le Nove, a pleasing character comedienne. Five reels of new and up-to-date pictures, including the German fleet at Hampton Roads on the occasion of President Taft's official visit. A great show with no advance in price.

Rye, Barley and Oats.

Rye is the grain of poor countries, and Europe consumes more than nine-tenths of the world's supply. Its culture is stationary in the Northwest and west of Europe, and in the south-west of France is diminishing. But it is gaining somewhat in Russia, Japan, Tunis and more than all in this country. But still the United States produces less than 2 per cent of the world's supply.

The culture of barley, on the contrary, is gaining almost everywhere. At the same time the yield per acre has increased so that the total production is a third more than 40 years ago.

The production has almost doubled in Austria-Hungary, more than doubled in Tunis, Australia and Japan, tripled in this country and quadrupled in Canada.

There is also a constant increase in the world's production of oats. The acreage has increased 43 per cent since 1871 and the yield has increased 73 per cent. The United States, Russia, Germany and France lead in production, in the order named.

Woman Prison Warden.

The newly-appointed warden of the prison for the Canton Wandland in Switzerland is a woman, Frau Panny Porchet. In her application for the post, she said that in the course of her husband's administration as warden, and particularly during the illness which caused his death, she had acted as warden and found that she was in every way competent to fill the place. Knowing that there might be some doubt as to her physical ability to handle obstreperous prisoners, she offered to meet the strongest man on the police force in a wrestling contest.

Frau Porchet was invited to appear before the appointing board and made such a favorable impression that she was appointed without demonstrating her strength. She is 41 years old.

Will all the Boy Scouts who wish to give towards the Allison J. Hayes gift from the Scouts please meet Tuesday morning, 10 a. m., at the Methodist church.

OBSEQUIES

The funeral services over the remains of Daniel Casey were held at the Church of the Immaculate Conception on Sunday afternoon at three o'clock, which were conducted by Rev. Edward J. Walsh, P. R., in the presence of a large number of lifelong friends of the deceased. Numerous beautiful floral emblems testified to the esteem in which the deceased was held and the sorrow occasioned by his death.

The interment was in charge of Funeral Director W. P. Miskell and was in Calvary cemetery. The pallbearers were John H. Dawl, Frank A. Fagan, Michael Huelay, Thomas McCarthy, William McEvoy and Patrick McCann.

SHERIDAN WILL UMPIRE

Bill Sheridan, the umpire of the Sunset League, will be in his usual place this evening at the playgrounds when the Knights of Columbus and the Portsmouth Catholic Union meet on the diamond.

BAPTIZED ON SUNDAY

The rite of baptism was administered to six persons at Noble's Island Sunday afternoon at 1.30 o'clock by Rev. Edwin P. Moulton, pastor of the Pearl street Baptist church.

### MEN WANTED

On Friday, June 7th, a number of employees of the Boston Elevated Railway Company left their positions without notice and went on a strike which now exists. These represented almost entirely the newer, younger, more inexperienced men. A large majority of the men, including nearly all of the older, responsible men, remained with the Company and have faithfully served it in operating its car service, which has been well maintained over its entire system.

The Company wants at once suitable experienced Motormen and Conductors to fill the places of men who have left the service, and offers attractive, permanent employment not only to these but to other worthy persons who can qualify.

For full information, write or apply to Superintendent of Employment, 153 Milk Street, Boston, Mass., or to Mr. McLaughlin, Room 2, Keeney Hotel, Portsmouth, N. H.

# DEMOCRATS IN A DEADLOCK OVER SUNDAY

## Clark Steadily Losing and Wilson Coming Strong--Twenty-Six Ballots and No Choice.

The Democratic convention remained in a deadlock over Sunday and it is doubtful if it will be broken until at least several ballots have been cast today. The convention at 11 o'clock Saturday night adjourned until 11 o'clock this morning and the majority of the delegates got the first sleep for several days. Whether the many conferences which were held during the day will show any effect on the 27th ballot today remains to be seen. The 26th ballot resulted as follows:

|           |         |
|-----------|---------|
| Clark     | 463 1/2 |
| Wilson    | 407 1/2 |
| Underwood | 112 1/2 |
| Harmon    | 29      |
| Marshall  | 20      |
| Boas      | 13      |
| Bryan     | 1       |

The chief feature of the long session of Saturday was the sharp decline of Clark's strength, and the steady increase of Wilson. Bryan deserted Clark because he was supported by the New York delegation and others have fallen away gradually until at the 26th ballot he had fallen below a majority. Clark arrived in Baltimore Saturday night to try and rally his forces.

With the record of the largest number

of ballots in a Democratic National convention since the famous Charleston convention of 1860 when 57 ballots were taken, this is the story to date of the balloting at Baltimore. Champ Clark started on the first ballot at 6:45 Friday morning with 440 1/2 votes and a lead of 110 over his nearest opponent, Woodrow Wilson. With a slight occasional gain or loss from that total his vote rose only to 452 before New York shifted to him on the 10th ballot at midnight Friday night. A stampede to him being frustrated by a counter-demonstration among the radicals, his vote was increased only to 556, or a gain of but 14 votes in addition to those which New York brought him but that was a majority.

He yet lacked however 171 votes of the necessary two-thirds. Toward that goal he made no further real progress. Indeed he suffered an actual loss of two votes on the 15th ballot and Saturday he was the victim of a process of steady disintegration. Mr. Bryan jumping on his candidacy as it was going down with hob-nailed shoes.

His vote fell little by little until his majority was gone and he sank below the 500 mark. On the 25th ballot the

Clark vote was 469. But for the addition of the 90 votes of New York, this would show a loss for him of 61 votes from his original strength. His losses were scattered among the delegations from Arizona, Idaho, Kansas, Louisiana, Massachusetts, Montana, Nebraska, New Hampshire and Vermont.

Wilson Gained Steadily All Day. When the Clark vote had sunk below 500 on the 25th ballot the leader on that side, Senator Stone came across with a little suggestion that after two more ballots a plan of elimination should be adopted whereby the lowest man would be dropped on each succeeding ballot until only two were left. The final ballot should be confined to them and the higher man should be declared the nominee, but this was objected to.

Governor Wilson was the galner all day, his vote rising as Clark's fell. Starting in with 324 on the first ballot he had 554 at the adjournment at 3 o'clock Saturday morning. In the balloting Saturday Wilson rose until he passed the 400 mark on the 24th ballot in the evening. On the 26th ballot he polled 407 1/2 votes. But for New York's vote which is not native to the Clark column, the Speaker would have fallen behind Wilson and been second in the race.

The notable Wilson gains came from the shift of the solid Kansas delegation from Clark, and from recruits picked up from Connecticut, Idaho, Louisiana, Massachusetts, Nebraska, New Hampshire, North Carolina and Ohio.

### WAS THINKING OF FARRAGUT

Admiral Dewey's Explanation of the Order to Fire on Spanish Fleet at Manila Bay.

Washington.—Sitting in his office recently and looking upon the old sea chest which contains the records of that fateful day at Manila, I asked Admiral Dewey what was uppermost in his mind the night before the battle of Manila, when he contemplated entering a harbor mined with torpedoes says a writer in Chapple's News-Letter. His eyes sparkled as he replied:

"All night and all morning my mind had reverted to one picture—that of Flag Officer Farragut, whom I first met at New Orleans in 1861. There were no admirals in those days, the captains being the highest ranking of officers, and our commander was the flag officer. We young cadets grew in actively to admire the intrepid Farragut, and that night at Mobile will never be forgotten, when his voice rang out loud and clear: 'D—n the torpedoes—full speed ahead!' Some how that command would ring in my ears every time danger confronted us. One does not instinctively think of himself in such moments, but of some hero whose life has impressed him."

Then I ventured to ask the admiral why he did not give his command at Manila in some dramatic and stentorian way like Farragut. With that modesty known only to Dewey, he replied: "I was not thinking of myself; I was thinking of Farragut."

Dewey's command to begin one of the greatest battles in all history was given in an ordinary tone, as if he were simply ordering a cup of coffee. History records it that he calmly said to the commander: "Gridley, when you are ready, fire."

History is made by the men who carry with them all their lives the same ideal, and who, with limitless bravery and courage, give in less than sixty seconds those commands that make history for ages.

### TWO GIRLS SEEK DRUG CURE

Beg to Be Sent to an Insane Asylum to Kill Their Craving for Morphine.

Oklahoma City, Okla.—Two young girls, Lillian Kersey, aged seventeen years, and her fifteen-year-old sister, Ollie Kersey, both, according to their own statements, confirmed users of morphine, voluntarily appeared before Mrs. Sam Bartlett, police matron, and asked that they be sent to the state asylum for insane at Norman, to be cured of the drug habit. Both girls physically were in a pitiable condition, their faces red, and their eyes swollen. In charge of a deputy sheriff the two sisters left over the Santa Fe for Norman Wednesday evening.

Lillian, who did most of the talking, appeared to have a very good education. She told of how she had become addicted to the use of the drug, saying that after she had been sick with pneumonia fever four years ago she took morphine in small quantities to relieve her suffering. As she recovered from the illness, instead of getting the use of morphine she used more and more, and now claims to take about 25 cents worth daily when she can procure it. According to physicians that much of the drug daily will kill two healthy men.

The younger girl has been addicted to the use of the opiate only a little more than one year, but her system already requires nearly as much of it as does her sister's. The two girls were arrested by Patrolman Smith at the stock yards. They claim to have been employed in the sausage room of one of the packing plants since they left home.

Tubercular Deaths Decrease. New York.—In the decade from 1901 to 1910, the death rate from tuberculosis in the United States fell from 196.9 for each 100,000 persons to 169.3, a decrease of 13.1 per cent, while the general death rate, including all causes of death, declined only one-half as fast, or at the rate of 2.7 per cent, from 1,665.0 to 1,626.8.

# NAVY YARD WORKMEN CONTINUE ON THE JOB

## Not to Close Down for Lack of Appropriation--Orders Received Late Saturday.

The navy yard will not close down this morning owing to the failure of Congress to pass the big appropriation bill, as orders were received at the yard Saturday afternoon to continue work and pay the men on the regular pay day.

The previous orders were to close the yard down on Saturday night providing the appropriation bill was not passed, and arrangements were under way to do this. The working force were to be all paid off by this morning and some of the men were paid on Saturday and the payment was to

have been continued Sunday so that it would be cleared up by the first, but the orders of Saturday afternoon cancelled this.

From Washington word was received that Chairman Fitzgerald of the Appropriation committee had stated that the appropriation would be provided as soon after the first of the month as possible. Owing to an agreement between the Senate and the House, no business of importance was to be carried out before June 15 and July 1 owing to two conventions as a good majority of the senators and congressmen would wish to attend the conventions.

## NICE HAS A DRAGON

Strange Sea Monster Causes  
Panic in Italian City.

Residents of La Turbie Are Badly  
Frightened and No One Dares to  
Venture on Highways With-  
out an Armed Escort.

Nice.—They say it is about two  
meters long and at least thirty-five  
centimeters broad, with enormous  
jaws well furnished with dentistry,  
but what kind of an animal it is no  
one knows. For the past several days  
the residents of La Turbie have been  
living in deadly terror of it. A search  
was organized, but as yet only two per-  
sons have met the "thing" face to face.

About 11 o'clock in the morning re-  
cently a boy was passing through the  
quarter known as "Les Routes," car-  
rying a defunct to his father, who is  
employed in a quarry. Suddenly an  
animal, stranger than any he had ever  
seen, appeared in his path.

The boy ran, but so did the animal.  
Just as he was about to be caught the  
boy climbed on to a block of stone.  
The animal managed to get on its hind  
feet and was about to grasp the boy  
in its terrible jaws when the automo-  
bile, which runs between La Turbie  
station and the Mont-Agel golf course  
approached.

Frightened at the noise, the "wild  
beast" took flight and fled. The boy  
shows marks on his breast which he  
says were made by the animal when it  
was reaching for him. He also de-  
clares the animal was covered with  
huge scales.

A posse was organized immediately  
and started in pursuit, but not even a  
trace of the animal was seen. Yes-  
terday a laborer at the quarry says  
he found the strange thing stretched  
across the Mont-Agel road. The man  
was on his way to work, and upon see-  
ing the animal he ran all the way  
back to the village. He swore he  
would never go to the quarry again.

La Turbie residents who do not be-  
lieve in material manifestations of the  
supernatural say that the animal is a  
crocodile which has perhaps escaped  
from a menagerie. And why not, they  
declare, "Marselles had its tiger!"

## MAY DEPORT "OLD MAIDS"

Increasing Number of Spinsters  
Alarms Mothers—Home Neg-  
lect is Cause.

London.—The question of how to  
diminish England's rapidly increasing  
crop of old maids has become vital  
here and hardly a week passes with-  
out a lecture on the subject.

Miss Josephine Knowles, England's  
foremost expert in this line, has just  
held a lecture in which she severely  
criticized English parents, whom she  
accused of injuring their daughter's  
prospects by caging them up at home,  
slightly catering for them in the way  
of food, clothes and necessities, but  
without allowing them as much as six-  
pence weekly for pin money, and giv-  
ing them no training or education that  
would make them fit either to marry  
or to make their own living.

She strongly advocated emigration  
of girls on a large scale, rather enjoy-  
ing the shock this gave her audience,  
and declaring that her suggestion was  
based on sound common sense as long  
as there was a large superfluity of  
women in England while men in the  
colonies were clamoring for wives. At  
the end her argument conquered and  
a society is soon to be formed to ar-  
range marriages between suitable  
parties in England and her dominions.

## "PUPPY LOVE" NOT FOR SHOW

Lecturer of San Jose (Cal.) W. C. T.  
U. Would Not Permit Little Ones  
to See "Silly Antics."

San Jose, Cal.—All the world loves  
a lover—except Mrs. Florence Lake,  
state lecturer of W. C. T. U.

Mrs. Lake was one of the speakers  
at the county W. C. T. U. convention  
at Morgan Hill and was discussing the  
environment and associations of chil-  
dren. Among other pointed features  
of her address was a paragraph in  
which she said:

"Children should not be in the same  
house with silly lovers and newly mar-  
ried people."

Mrs. Lake believes that "puppy love"  
has no good place in the home of a  
child, and therefore the very young  
should not, with the natural initiative  
she is allowed to see the antics of  
lovers and newly weds.

Few Don'ts to Girls.

Milwaukee, Wis.—For girls who are  
young and inexperienced, Mrs. Rose  
Happerath, aged sixteen, compiled a  
series of admonitions, shortly before  
she filed suit for a divorce from  
Charles Happerath, a wealthy restaur-  
ant owner, who is much her senior.

Eight months of wedded life, Mrs.  
Happerath said, provided the basis for  
the following don'ts:

"Don't marry until you are twenty."

"Don't marry a man who is twenty  
years your senior."

"Don't marry a man who keeps a  
bevy of girls in his employ."

"Don't marry any man until you  
have known him at least a year."

"Don't fall to have a few under-  
standings before the knot is tied, if  
you would avoid misunderstandings  
afterward."

"After my divorce is granted," said  
Mrs. Happerath, "I am going back to  
school and learn a few more things."

## MANY TRIBES REPRESENTED

A Feature of the Young Buffalo Wild  
West Show

"The forty-two tribes gathered from  
the reservations show all the character-  
istics in peace and war, in their homes,  
their hunts, and on the war path, that  
have distinguished them since the Pil-  
grim Fathers landed on Plymouth Rock,"  
said ex-U. S. Senator Chauncey M.  
Dewey after a visit to Col. Cummins'  
Far East and Indian Congress, now re-  
turned to America after a six years'  
tour of Europe, to be consolidated with  
the Young Buffalo Wild West. Col.  
Cummins' exhibition was the big fea-  
ture attraction of the World's Fair, held  
in St. Louis, and he numbered among  
his patrons men and women whose  
names are known throughout the civil-  
ized world. After paying the exhibition  
a visit, Mrs. William Jennings Bryan  
wrote: "The Indian Congress is a  
school of instruction, a schoolhouse of  
information, a happy, merry playground  
for little children. It is in the open air,  
is not housed up and is in line with the  
principles of good health. Every  
man, every woman, every child in the  
Union should see it."

The Young Buffalo Wild West and Col.  
Cummins' Far East will exhibit in Port-  
smouth on Monday, July 8. The many  
tribes of Indians is but one of the fea-  
tures of these combined exhibitions.  
They appear in large numbers in the  
wild west episodes and events that are  
reproduced in a historically correct man-  
ner. Annie Oakley, the peerless white  
and rifle shot of the world, is one of the  
bright stars in the wild west section of  
the exhibition. Billy and Marion Waite,  
Australian bull-whip manipulators, will  
make their first American appearance.  
They perform the most remarkable feat

with giant whips, the lashes of which  
measure 35 feet in length. At the full  
distance of the lash they break glass  
balls thrown high in the air, break clay  
pigeons thrown from a trap, pick the ash  
from off a cigarette held between the  
lips of an assistant and execute many  
other wonderful demonstrations. The  
four quarters of the world has contrib-  
uted its most strange, picturesque and  
fascinating people for these combined  
exhibitions.

## MOVED TO LARGER STORE

Charles A. Towle Now in New Quar-  
ters at 34 Congress Street.

Charles A. Towle has moved from  
his old stand at No. 40 Congress street  
to his new quarters on the same street  
beside the Jackson express office. The  
store has been in the hands of car-  
penters for the past three weeks and  
new fixtures have been built and the  
entire store renovated. In his new  
and enlarged store, Mr. Towle will be  
able to carry a much more varied  
stock, at the same time maintaining  
his standard stock as in the old store.

## SPIRITS FIND MINE

Dead Friends Direct "Mediator"  
to Gold Deposit.

At Least Old Tristram H. Brown of  
Maine, Their Confidant, Declares  
They Did—Neighbor Felt  
His Power.

Bangor, Me.—Tristram H. Brown,  
the "Mediator," was in Bangor, re-  
cently, on his return from a visit to  
Boston, and although eighty-six years  
of age he tripped down town like a  
boy and told with enthusiasm all  
about a new treatise he has just com-  
pleted on "The Truths of Christ and  
the Errors of Christianity." Not  
long ago the Mediator demonstrated  
his reputed supernatural or unusual  
powers by locating a gold mine in  
California, getting his information, he  
said, from the spirits of intimate  
friends long dead.

For many years Brown has occu-  
pied a little cabin on a mountain  
slope, spending his time chiefly in  
fishing, hunting and philosophical  
meditation and research, all the while  
holding communication with the  
spirits of the departed, he says. He  
calls himself "Mediator between God  
and man."

Beyond delivering exhortations  
wherever he may find a listener, the  
Mediator's principal occupations are  
trapping for furs and bear bounties  
and preparing and peddling a medi-  
cine, compounded from forest roots,  
barks and herbs, warranted to cure  
every human malady. His gala time  
of the year is when the Spiritualists  
of Maine hold their annual camp-  
meeting at Etna Pond in Penobscot  
county. This he always attends, en-  
tering into the spirit of the occasion  
with an enthusiasm that makes the  
job of suppressing him the most dif-  
ficult of the whole proceedings.

The Mediator's only neighbor is  
Nymphs Bodfish. Becoming offended  
at Bodfish, the Mediator, so the story  
runs, laid the curse on him that he  
should catch no bear in his traps for  
500 years. Bodfish went on setting his  
traps, but caught nothing. Then he  
went to the Mediator to try to in-  
duce him to lift the curse. The Medi-  
ator at last relented to the extent of  
taking off 200 of the 500 years. Bod-  
fish went home and thought it over.  
Even 300 years seemed too long a  
time to wait, and again he called on  
the Mediator, who consented that the  
200 years relate should run forward  
from the beginning instead of back  
from the end of the original 500. At  
the end of the season the customary  
array of bear pelts was hanging on  
Bodfish's fence to dry.

Brown says the spirits told him of  
the existence of a very rich mine in  
California. They described it so  
carefully that the Mediator felt sure  
he would be able to find it, and he  
notified some of his earthly friends on  
the coast. The Californians told him  
to come on and locate the mine, and  
he did so, returning with the news  
that he had pointed out the location  
of a gold deposit that would make  
them millionaires. For himself he  
had no interest in wealth.

One day the Bodfishes gave Brown  
a cat.  
"When I got that cat home,"  
Brown said, "I took it out in my cook  
room and placed a pan of fish on the  
table, and I said to the cat, 'Bodfish  
cat, there is a pan of fish on the  
table. I am going out of the room for  
a while and while I am gone I do not  
want you to touch those fish. If you  
do, Bodfish cat, I will kill you. Now,  
remember.' Well, I went out of the  
room and returned when I said I  
would and part of the fish was gone.  
Did I kill the cat? Well, I couldn't  
break my word."

## MAN IS GIVEN HONEST CARD

Passport at Last Issued to New York  
Mechanic Arrested as Burglar  
Sixteen Times.

New York.—The first passport ever  
issued by the police department of  
New York was given to Ralph Fisher,  
an honest mechanic, who has been ar-  
rested 16 times during the last few  
weeks, charged with having burglar-  
ized his possessions.

Fisher is a night worker employed  
by a company which repairs kitchen  
utensils in big hotels and restaurants.  
He receives many emergency calls  
during the night and has to take  
along his tools to make repairs.

Fisher told Police Commissioner  
Waldo that, in addition to having been  
arrested 16 times, he had been inter-  
rupted almost nightly by policemen  
and detectives, who mistook him for  
a burglar. All members of the po-  
lice department have been notified of  
the issuance of the passport which  
Fisher will carry with him on his  
nocturnal errands.

No Morgan Art for Brooklyn.  
New York.—Brooklyn will not ex-  
hibit any of the art treasures J. Pier-  
pont Morgan is shipping to this coun-  
try from Europe. This was made  
known in a letter received by Borough  
President Steers.

He had suggested to Mr. Morgan  
that if the Metropolitan museum could  
not display the art works adequately  
they could be taken care of by the  
institution museum. Mr. Morgan re-  
plied from Rome:

"I have already arranged with the  
Metropolitan museum to store my col-  
lection and I can not, therefore, take  
up the same question with anyone  
even so long as they continue to con-  
form to their part of the contract."

## ITEMS OF INTEREST TO NAVY YARD EMPLOYEES

## A Chance for Strong Men

While some of the local wrestlers are talking what they can do with their strength they might get busy hunting up Bill Henning, a private in the marine guard on the U. S. S. Southern, with the prospect of arranging a match. Henning is a modern Sampson in the art and has put a lot of the strong men on their backs with his famous toe hold and hammer lock. He hails from Newark and besides being a good wrestler can make a few of the fast ones trot along with the boxing gloves.

## At Jamestown for Summer

Mrs. J. J. Berry of Portsmouth, N. H., has taken the Wayside Cottage, in Jamestown, for the summer and has with her her two daughters, Mr. Robert A. Theobald, wife of Ensign Theobald, U. S. ## Plucking Board Busy

The navy plucking board is in session in Washington today. It is said that previous to the meeting of the board nearly a dozen officers asked for retirement.

## Attended Garden Party

Rear Admiral John F. Edwards, recently at this yard, Lieut. Comdr. David V. Todd, Major George O. Squire, signal corps, U. S. army; Major and Mrs. Edward Russell and Major and Mrs. Charles McK. Saltzman, now in London, attended a garden party given at Buckingham Palace by the king and queen in honor of the delegates to the International Conference.

## Premier Scenic Programme

For Monday and Tuesday we offer an all-feature program, as follows:

"Over the Divide"—Lubin—Is a strong dramatic western story abounding in thrills and hair-raising incidents. A picture that will appeal to all.

"The Passer-By"—Edison—This is a feature film intensely interesting and dramatic. A passer-by, a derelict, haled from the street, relates his tale of love. Turning he recognizes the portrait on the wall the mother of his host and he silently passes on.

"The Runaways"—Lubin—A comedy of complications full of life and go. A riot of laughter from start to finish.

"The Light That Failed"—Vita-graph—Conflict between employer and employee leads to sad consequences. Reason should not be untroubled by selfish motives violence or revenge. This picture throws a strong light on the labor problems that often confront us.

"Lena and the Geese"—A very interesting story of Old Holland, very beautifully portrayed by the Vita-graph company.

Miss Margaret Pearson sings, "As Long as the Shamrock Grows Green" and "Mammy's Shuffling Dance" with full orchestra accompaniment.

Matinee 2:30, evening 7:30, Saturday 2:30. Dancing at usual.
